ERINHA-Advance is a Horizon 2020-funded project meant to support the first three years of operation of the European Research Infrastructure on Highly pathogenic Agents (ERINHA).

ERINHA was officially registered in Brussels, Belgium, as an Association Internationale Sans But Lucratif sous loi belge (Non-Profit International organization under Belgian law; ERINHA-AISBL) and operates through its Central Coordinating Unit (ERINHA-CCU) based in Paris, France.
